EPSON TM-U230

Robust printer designed for the demanding kitchen environment.

Epson's durable TM-U230 impact printer is the perfect addition to any kitchen environment. The high performance, two-colour printer is unaffected by steam, grease or spillages, thanks to a water-resistant case with a coated, anti-bacterial surface which allows stains and grime to be effortlessly wiped away.

The TM-U230 is designed for use as part of a kitchen ordering system. In addition to standard serial and parallel interfaces, the product supports both USB and Ethernet, allowing remote connection to a point of sale terminal in the restaurant area. All printers are fitted with a buzzer to alert busy kitchen staff to incoming order information. It also fits easily into any kitchen, and can be installed horizontally and vertically, as well as wall-mounted, out of harm's way.
